## ABOUT ME

I love to share my accumulated knowledge which I earned throughout my 8 more years graphic design and teaching tenure among all the learners of these beautiful fields. I have been trying to help new learners through online and offline platforms to encourage them to achieve their goals within the shortest possible time. I am truly blessed by helping numerous people to land on their dream job via my networks. I do want to contribute more in the development of this sector in my country as it is one of the most populous countries in the world and lots of people are in a prosaic state of mind because of the unemployment in their respective field. So my ambition is to help these people by teaching them what I learned to create a better future for them as well as for my country.

## SOFTWARE

## WORK EXPERIENCE
